COMPANY-SPECIFIC PROCUREMENT RESEARCH

Focus your bid time. Understand the fit before you commit.

We help commercial cleaning providers screen public contracts against their actual capabilities, so unsuitable tenders and unresolved obstacles are visible before bid work begins.

A CLEARER BID / NO-BID DECISION

Relevant opportunities. Evidence you can trace.
Practical questions to resolve before committing resources.

SEE WHAT YOU WOULD RECEIVE

Open the two-page Dover sample assessment
Official facts, company relevance, deadlines, historical supplier evidence where available, eligibility uncertainties and recommended actions.

Illustrative Wetton-specific research, not commissioned or endorsed by Wetton. A sample brief, not a complete five-opportunity pilot. Evidence checked 5 November 2026; time-sensitive facts must be rechecked before use.

£250

DISCOVERY PILOT / TOTAL MAXIMUM

No VAT charged. No upfront payment. No subscription.
Written scope first; explicit acceptance before invoicing.
Incomplete scope: decline without charge, or expressly agree a smaller scope.

YOUR DISCOVERY PILOT

A practical research pack. A defined first step.

For one agreed UK cleaning or closely related facilities-management profile.

WHAT YOU RECEIVE

A structured schedule targeting five screened, live, new-to-client opportunities; one two-page notice-level bid/no-bid assessment; official source references and verification dates; a concise action plan; and a 20-minute handover or written Q&A, plus one clarification response.

HOW WE REACH THE RECOMMENDATION

We start with official notices and available public buyer history, record check dates and screen against your regions, capability evidence and disclosed pipeline. We separate verified facts, our analysis and unresolved questions. Research may be AI-assisted; important findings require source checks and owner review before customer delivery.

TIMING AND LIMITS

Proposed delivery is within ten working days after feasibility is confirmed, written scope is agreed and required inputs are received. Suitable tenders are not guaranteed to exist. No exhaustive search, full tender-pack review, bid writing, legal advice, certification or award guarantee is included. You retain all bid decisions.

ACCEPTANCE PROTECTS THE CUSTOMER

Five working days to review; silence is not acceptance. Deficient work is corrected/replaced within five working days or its charge withdrawn. The complete pilot is £250 total, with no VAT. If fewer than five records can be supplied, decline without charge or expressly agree reduced scope at £50 per accepted record. No automatic partial billing. Accepted work is invoiced on seven-calendar-day terms.
